Detections:
- Sigma: proc_creation_win_lolbin_susp_dxcap.yml

Execute

Launch notepad.exe as a subprocess of dxcap.exe. Note that you should have write permissions in the current working directory for the command to succeed; alternatively, add '-file c:\path\to\writable\location.ext' as first argument.

```
Dxcap.exe -c C:\Windows\System32\notepad.exe
```

Use case: Local execution of a process as a subprocess of dxcap.exe
Privileges required: User
Operating systems: Windows
ATT&CK® technique: T1127: Trusted Developer Utilities Proxy Execution
