

Living Off The Land Drivers

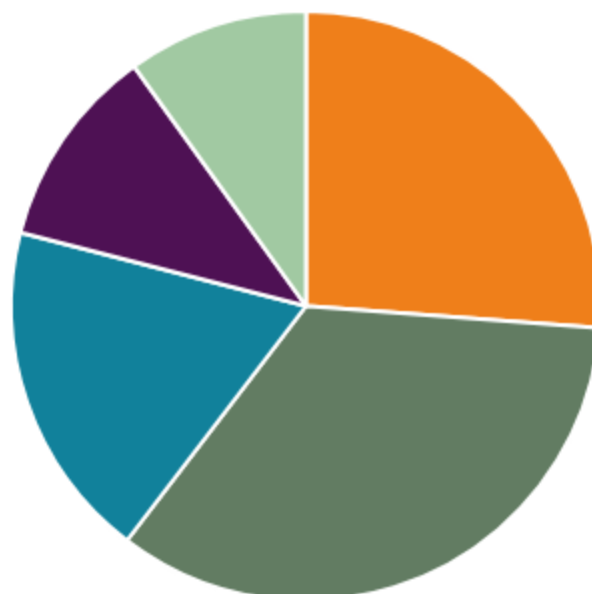

Living Off The Land Drivers is a curated list of Windows drivers used by adversaries to bypass security controls and carry out attacks. The project helps security professionals stay informed and mitigate potential threats.

i Feel free to open a [PR](#), raise an [issue\(s\)](#) or request new driver(s) be added.

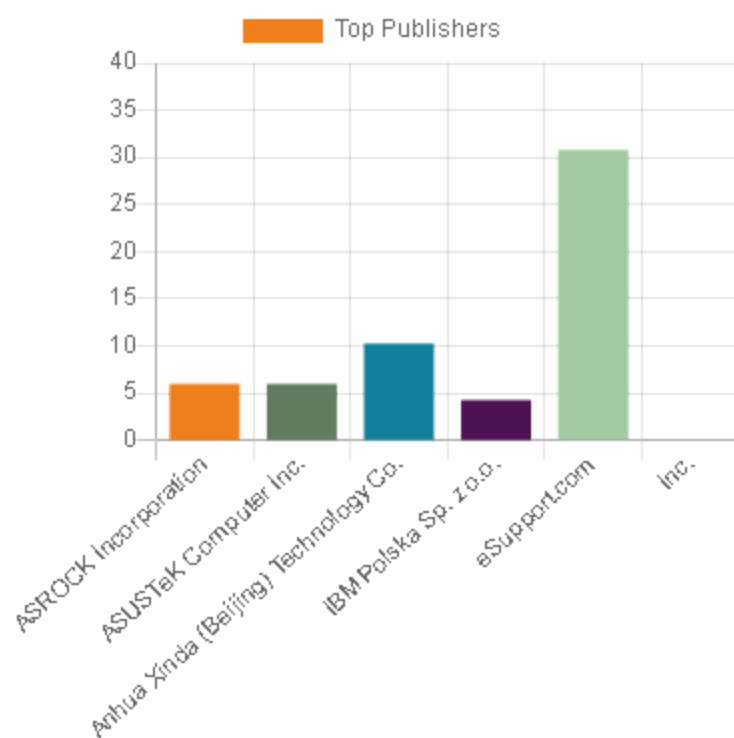

i You can also get the malicious driver list via **API** using [CSV](#) or [JSON](#). Sysmon users check out the pre-built [config](#). There is a [Sigma rule](#) for SIEMs. If you've found this project valuable, you'll absolutely love our sister

Top Products

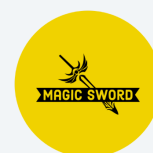

■ CPUID service
 ■ NTIOLib
 ■ Novell XTier
 ■ Windows (R) Win 7 DDK driver
 ■ mimidrv (mimikatz)

projects, [LOLBAS](#) and [GTFOBins](#),
check them out!

Interested in learning how to **block** these drivers natively on Windows?
