My new tool RedditC2 got recently updated and now it supports some cool features like: - encrypted C2 traffic - stealth mode (OPSEC): leaves no trace of the C2 logs - a cool banner 😊 Link to the tool: [#c2 #reddit #cybersecurity #informationsecurity #infosec #bugbounty #ethicalhacking #pentesting #cyber #hacker #bughunting #ethicalhackers #security #securityawareness #certificates #hackthebox #certificate #activedirectory #redteam #redteaming #github](https://lnkd.in/ecpbRbtu)

 [GitHub - kleiton0x00/RedditC2: Abusing Reddit API to host the C2 traffic, since most of the blue-team members use Reddit, it might be a great way to make the traffic look legit.](#)
