RoboForm informs you when one  
of your passwords has appeared  
in a documented breach.

Securely share passwords with  
trusted contacts without the risk  
of exposing sensitive data.

SECURITY

Add verification codes to RoboForm Authenticator via QR scan, adding a key, or import from other authenticator apps. Accessible on all RoboForm devices, six-digit codes can be auto-filled into log in forms with a single click.

## NEW FEATURE

Passkeys are a new way to securely log in to websites without using passwords. With RoboForm, you can now save and use passkeys across all your devices.
