docs

passing

A utility to convert your AWS CLI credentials into AWS console access.

- Free software: BSD License
- Documentation: <https://aws-consoler.readthedocs.io>.

## Features

- Load credentials from the command line or from boto3 sources (envvars, profiles, IMDS)
- Coordinate communication to AWS Federation endpoint
- Select appropriate endpoint based on partition
- Load resultant URL in user's browser of choice

## Credits

Thanks to some of the bloggers at AWS (Jeff Barr, Kai Zhao) for the helpful guides on Federation in AWS.

Thanks to Karl Fosaaen (@kfosaaen) for the inspiration to write this tool.

This package was created with [Cookiecutter](#) and the [audreyr/cookiecutter-pypackage](#) project template
