common
to all
actions,

[Contact Us](#)

AccessDeniedException

This exception is thrown when a user does not have permission to perform a specified action.

Access Denied. You do not have sufficient access to perform this action. Check the IAM policy for the action and resource, and ensure that it includes the correct ARN.

The request failed because the specified resource does not exist or is not accessible. This exception is thrown when a user attempts to perform an action on a resource that does not exist or is not accessible.

AlreadyExistsException

This exception is thrown when a user attempts to create a resource that already exists.

A resource with the same name already exists.
