Your personal data will be processed and information from your device (cookies, unique identifiers, and other device data) may be stored by, accessed by and shared with 134 TCF vendor(s) and 63 ad partner(s), or used specifically by this site or app.

Some vendors may process your personal data on the basis of legitimate interest, which you can object to by managing your options below. Look for a link at the bottom of this page to manage or withdraw consent in privacy and cookie settings.

Manage options   Consent

However, in reality, OneLaunch is a browser that collects all kinds of browsing data from your browser settings and installs a new toolbar in the web browser in Microsoft Windows.

The web browsing data collected by the OneLaunch adware is used for advertising purposes. The browsing data is sold to advertising networks. Because OneLaunch gathers browsing data from your browser, OneLaunch is also classified as (PUP) Potentially Unwanted Program by malware investigators.

James Sullivan on May 14, 2021

One Launch comes up, asks for my email and password, then says my password is wrong. I ask and it says is sending password change to my email, but never arrives in either my input or spam.
